

Attends®

The Smart Choice
in Incontinence Care™

Booster Pads

Ideal for when an extra boost in protection is needed, Attends Booster Pads® are designed to be used in combination with another disposable absorbent product such as a brief, protective underwear, or pad. When the Booster Pad can no longer absorb any wetness, the porous backsheet allows the wetness to flow through the pad into the brief or other protective product being worn.

Individually wrapped

Adhesive strip

- Ultra-thin, absorbent core
- Full-length, secure-fit adhesive peel strip
- Use only in combination with another absorbent product for an extra layer of protection
- Individually wrapped to facilitate sanitary distribution to residents or on-the-go convenience and discretion for the at-home user
- Latex Free
