

Attends®

The Smart Choice
in Incontinence Care.™

Attends® Standard Use Underpads are available in a variety of sizes and absorbencies and are perfect for standard, everyday use in hospitals, long-term care facilities and in the home. They are great for protecting mattresses and chairs but also promote healthy skin by having a soft, cloth-like topsheet that covers the entire surface, and the top layers wick fluid away from the skin. Inner cellulose fibers make them comfortable and absorbent, and a strong, leak-resistant backsheet holds fluid.

All Attends® underpads are latex free and come in discreet outer packaging.

ABSORBENCY LEVEL

LIGHT MODERATE **HEAVY**
