

Protective Underwear Sizing Guide

Selecting the appropriate protective underwear size ensures comfort, leakage protection and dignity.

The Protective Underwear Sizing Guide is to be used as a guideline only. Waist and/or hip measurements should be taken to ensure proper sizing. Allowances must be made for gender and certain conditions such as hernias, amputations, etc. Clinical assessment recommended for anyone over 250 lbs.

Note: Sizing is extremely important. Inappropriate size or improper application can result in leakage.

Instructions:

- Pinpoint your height and weight (lbs.) on the Sizing Grid
- Match the color on the grid to the color on the Key to obtain the appropriate protective underwear size
