

INVACARE®
BAR600
BARIATRIC BED

The **Invacare® Bariatric Bed** is a heavy-duty full-electric bed frame designed for bariatric individuals. It is capable of supporting patients who weigh up to 600 lb. The bed frame extends to the edges of the bed deck for better support than most other split-spring bariatric beds. Using the hand pendant, the patient or caregiver is able to change the positioning of the head and foot sections, as well as the bed height. Despite being substantial in size, bed setup within the home is easy – no special tools are needed.

Features

Heavy-duty frame design ensures added strength for client support

Heavy-duty bed sleep surface is 17% larger than conventional beds to ensure comfortable positioning

Split-spring design with universal bed ends for ease in setup

No special tools necessary for in-home setup

Easy-release motor mounts allow quick motor removal

Robotically welded, steel frame construction

Pendant allows for dynamic client positioning

Quiet, smooth operation

Emergency crank manually functions to lower any raised section of bed

Use with Invacare bariatric mattress (BARMATT42) and bed rails (BAR6640IVC):

- BARMATT42 meets fire safety regulations 16CFR1633 and 16CFR1632

600 lb. client weight capacity

HCPCS Code: E0301

1. Hand pendant
